IASLIC 29th National Seminar 2022

29th National Seminar of IASLIC 2022 was organized by **Central Library, North-Eastern Hill University**, Shillong, Meghalaya during **March 15-17, 2023**. The Theme of the Seminar was **“Library and Information Centres in Digital India: Present Scenario and Future Strategies”**

The Seminar started at the Multiuse-Convention Hall in the picturesque campus of NEHU on 10:30 am on March 15, 2023. The inaugural session was chaired by the Honourable Vice-Chancellor NEHU Prof. Prabha Shankar Shukla, while the event was graced by Dr. WR Kharluki, MP Rajya Sabha Meghalay as the Chief Guest. IASLIC Vice-President Zone 5 Prof. Sanjay Kumar Singh and General Secretary IASLIC Sri. Abhijit Kumar shared the dais. Dr. FR Sumer welcomed all as the organizing secretary of the National Seminar. The Souvenir and the Abstract of the Seminar Papers was released in the session. Audience was enthralled by a melodious song Million Dreams presented by the students of the DLIS, NEHU. The session ended with the Vote of Thanks offered by the Dr. JJ Thabab, Faculty member DLIS NEHU. Soon after the inaugural session, the 5th IASLIC PC Shah Lecture was delivered by Dr (Mrs) Icylda Majaw, Retired University Librarian, Central Library NEHU on the theme: Challenges, Achievements the Readers’ Service Perspectives. Drawing reference to the Five Laws of Library Science, Madam Majaw narrated the treacherous journey the NEHU Central Library has passed through during last few decades. The transition of the library from a system dominated by manual nature of work environment to a modern library, that has now become the hub of the scholarly resource and information for the University community. Madam recalled the challenges and the changes witnessed in the spheres of resources mobilization, services orientation towards optimizing the expectations of the users in the University library. Parallel to the ventures for adopting modern technologies, she urged upon the library and information professionals of the present general to focus on the “human touch” which would act as a mantra to build the right attitude and generate trust on the library system from the part of the users which would facilitate providing quality services.

The IASLIC Annual General Body Meeting was held in the main conference venue in the late afternoon, where all the members of IASLIC and other Non-Member LIS professionals, delegates and student participants in the national seminar participated. A range of vital issues have been discussed and deliberated at length in the meeting with a vision to add momentum to the activities of the national leading association. The proceedings and recommendations of the GB Meeting and the AGM Meeting have been compiled separately and submitted to the concerned authorities.

Day 3: Panel Discussion. Topic: *New Education Policy and the Libraries.* Panellists: Prof. Pravakar Rath, Professor Department of Library & Information Science and VC (i/c) Mizoram University. Prof. Narandra Lahkar, Former Professor Department of Library & Information Science, Gauhati University and President IASLIC. Prof. S.M. Sungoh, Professor, Department of Education, NEHU, Shillong. Prof. S.R. Joshi, Department of Biotechnology, NEHU, Shillong. Prof. Sanjay Kumar Singh Professor Department of Library & Information Science, Gauhati University. (moderator): Dr. F.R Sumer, Librarian, Central Library NEHU, Shillong, initiating the discussion on the topic. Prof. Sungoh highlighted the key objectives of the NEP 2020 and the mechanism underlined in the policy document to realize the objectives. Focusing on the objectives that envisioned creating a skilled India, organization and dissemination of knowledge is going to play the pivotal role in this regard. In the same tune he laid stress on expediting the services of the library and information centres to meet the expectations of the users with a renewed venture. Prof. Rath explained the Indian Knowledge System and the Indigenous Knowledge System and how these two important areas has been given due importance in the policy document. Pointing out to the removal of hard compartments of the different disciplines of knowledge in the NEP 2020, he narrated the new role the schools and the universities have to shoulder to negotiate the challenges in guiding the students and designing research to generate the desired knowledge. Readiness to accept the demands of time must be part of the work culture for the library and information professionals, as demanded by the NEP 2020, he observed. Prof. Joshi elaborated the key changes the policy is going to bring in the education system in the country, particularly in the spectrum of higher education and research and the expected outcome thereof. He categorically stressed the role the library and information centres must have to play, which would certainly demand some amount of critical and innovative thinking from the part of the library and knowledge centres. He observed that digital technologies are going to play a significant role in knowledge management tomorrow and urged the students and the researchers in the domain of LIS to get themselves adapted accord-

ingly so that they may successfully negotiate the challenges. Gautom Gogoi, Phulasmitha Nath and Birender Pal (first two are research scholars in the Dept of LIS, NEHU, while the last one is a working librarian and convener IT Cell, Assam College Librarians' Association) shared their views with the experts in certain issues within the ambit of the topic under discussion. Dr. FR Sumer invited to attention of the LIS schools to re-organize their syllabi to produce to pool of professionals with required skill to take the jobs the new millennium librarianship is in demand. He also urged the authorities of the universities to come forward to fill the gap of the manpower in the library and information centres. Professor Lahkar pointed out that the philosophical foundation in knowledge management is there in the core of librarianship. Fortunately, librarianship have shows its acumen to rightly choosing and accommodating the changes that have come time to time, be it changed perceptions of the information users, or the developments in the digital technologies. He expressed his full confidence in the present generation of the LIS professionals, LIS schools and the professional bodies to respond successfully to the demands of time including the NEP 2020 and beyond. Professor Sanjay Kr Singh expressed his gratitude to all the esteemed panellist for the insightful deliberations and discussion on the vital topic, and the house for active participation in the discussion.

Recommendations: Following recommendations have been jotted down from the discussion and deliberations on the theme of the seminar, deliberations made in the professional discussion as well as the panel discussion. **1. Gap in the expectations out of the Digital Initiatives and the preparedness of the Library and Information Centres:** There is a significant gap in the digital information space and the preparedness in the part of the Library and Information Centres and hence need to address the issue with due urgency. Schools of LIS, professional associations in LIS have to play their respective roles in right perspectives towards addressing the gap. **2. Social Media Policy:** Universities in the country are yet to implement the social media policy in the libraries except a few, hence it would be helpful if such a model policy is developed in the light of the National Information Policy 2020 for the libraries to address the challenges in this regard. **3. Preparedness of the Library and Information Centres to meet the expectations of NEP 2020:** Majority of the library schools have accepted the recommendations of NEP 2020 and are at different levels of their implementations. Since the requirements and expectations of the NEP 2020 are multidimensional, LIS schools have to take a lead to realize the expectations of the policy in the domain of LIS. Professional bodies in LIS must also come forward to supplement certain gaps in this regard. **4. Role of LIS Professional Associations:** It is observed that presence of LIS professional associations in the country in the digital domain is very scanty and hence it is advocated that associations extend their activities and services in the horizon of digital space.
