### About Aligarh Muslim University

Aligarh Muslim University (AMU) is recognized as one of the oldest and premier central government funded universities in India, established in 1920. It has been designated as an Institution of National importance (Seventh Schedule, Article 246 of the Indian Constitution). It has recently been awarded grade 'A' by the National Assessment and Accreditation Council (NAAC). Historically, the University evolved out of the Mohammedan Anglo-Oriental College (MAO College), which was set up by the great visionary and social reformer, Sir Syed Ahmad Khan in 1877. From its very inception, Aligarh Muslim University (AMU) draws students from all corners of the country and foreign countries, especially Africa, West Asia and Southeast Asia, irrespective of religion, caste and creed. Today, the University occupies a unique position amongst all the universities and institutions of higher learning in the country. The University has been ranked among the best educational institutions in India and across the world.

### About the Department of Library and Information Science, AMU

The foundation of the Department of Library Science was laid way back in 1950-51 with the introduction of a 'Certificate Course in Library Science', by the then University Librarian, (Late) Padmashree Prof. S. Bashiruddin, who later on introduced a one year 'Bachelor of Library Science' course in 1958-59. Subsequently, 'Master of Library Science' was introduced in 1970-71 and Ph.D in 1990-91. Currently, the department is offering Ph.D., M. Lib.I.Sc, B.Lib.I.Sc and B.A (as Minor Subject) in the field of Library and Information Science. The department has had the distinction of completing a number of DST, ICSSR and UGC major research projects by designing and developing LIS Subject Gateway ([www.lisgateway.com](http://www.lisgateway.com)), I.T. Subject Gateway (<http://www.itsubjectgateway.info/>) and E-Learning portal (<http://lislearning.in/>). The department has developed 'Social Science Cyber Library' ([www.socscybraryamu.ac.in](http://www.socscybraryamu.ac.in)), inaugurated by the then president of India, His Excellency Shri Pranab Mukherjee, on 27-12-2013. Under the UGC's Programme, the department was awarded Special Assistance Programme SAP (DRS-I) in the financial year 2013-2014 for five years on the theme of Knowledge Management in Libraries. Recently the department has got five IMPRESS projects in 2019, and three Major Research Projects in 2023 from ICSSR, New Delhi.

### About IASLIC

The Indian Association of Special Libraries and Information Centres (IASLIC) is a non-profit organisation based in India that supports development in the entire field of special librarianship in India. The IASLIC undertakes supports, coordinate research and studies, conducts short term training courses; organises general/special meetings, and hold seminars and conferences in alternate years on current problems of Libraries and Information services and other allied areas are selected as themes for discussions on these occasions. It also publishes journals, monographs, manuals, newsletters, papers, proceedings and reports.

### About the Seminar

The concept of Information Literacy was built upon decades long efforts of the library professionals to help users to learn about and how to utilise the resources of their Library/Information Centre. Information literacy is identifying, finding, evaluating, and using information effectively. From effective search strategies to evaluation techniques, students learn how to assess resources' quality, credibility, and validity and give proper credit. With the emergence of new technologies, information literacy skills enable individuals to navigate the vast informational landscape effectively. At this juncture, Library/ Information Centres should indicate analytical and critical skills among its user community to formulate search queries and to evaluate the results and skills to search, to identify, and access to a variety of information types to meet the information needs. In pursuance of Information literacy standards and models, libraries/information centres would enlighten their user community to cope with the new age requirement of sustainability and lifelong learning. Emphasising the ongoing importance and impact of Information Literacy in society, IASLIC has selected 'Information Literacy for Developing Enlightened Library/Information User Community in New Age' as the main theme of its 30<sup>th</sup> National Seminar-2024 expecting fruitful outcomes out of the deliberations and discussions.

IASLIC feels, that differently abled users should be encouraged to take part by satisfying their information needs and overcoming all barriers. Assistive technologies could bridge the gap that emerged due to the digital divide among such people in society. At the same time, the application of artificial intelligence would raise the library service quality. Thus, there will be deliberations on these two themes at the meetings of SIG01 (Social Science Information): Bridging the Information Gap of Differently abled Library Users and SIG02 (Computer Applications in Libraries): Raising Library Service Quality through Application of AI during the seminar. In this context, discussions on two pertinent issues, among many others are felt important.

### Objectives and scope of the Seminar

The IASLIC 30<sup>th</sup> National Seminar-2024 aims to bring together researchers, library and information professionals, educators, policymakers and all other information seekers to exchange knowledge and experience and to discuss recent developments and current challenges in both theory and practice.

The main objective of the Seminar is to make the individual capable in the optimum, effective and judicious use of information for not only enhancing the understanding but productive utilization of information resources.

- To Promote Information Literacy for Developing Enlightened Library/Information User Community in New Age
- To enhance participants ability to evaluate and apply information from various sources and equip with practical skills to navigate digital resources, databases, and libraries
- Encourage lifelong learning by promoting information literacy as a tool for personal and professional growth and development.
- To create an opportunity for networking and sharing best practices and facilitate exchanges among academician, library professional and researchers.
