About SOADU

Siksha 'O' Anusandhan (Deemed to be University), Bhubaneswar, declared as university U/S 3 of the UGC Act, 1956. It is a leading university in India offering professional programs in the disciplines of Engineering, Medicine, Dental Science, Nursing, Pharmaceutical Science, Biotechnology, Management, Law, Hotel Management, Agricultural Sciences, and Veterinary Science. S'O'A (Deemed to be University) was reaccredited by NAAC with an A++ grade (highest grade) in 2022 also approved by UGC, AICTE, and NBA. Today, Siksha 'O' Anusandhan (Deemed to be University) has emerged as one of the fastest-growing universities in the country. The university has been ranked among the top 14th best in the country in the University category, 24th best as an Overall Institute, 26th best in the Engineering category, 21st best in the Medical College category, 9th best in the Dental College category, 9th best in the Law category, 50th best in the Research category, and 62nd best in the Management category in the country by the National Institutional Ranking Framework (NIRF) of the Ministry of Human Resource Development (MHRD), Government of India in 2024. In The Times Higher Education World Reputation Ranking 2025, for first time Siksha 'O' Anusandhan spot in the 201-300 range.

About Central Library, SOADU

The Central Library plays a pivotal role in advancing the academic, teaching, and research mission of Siksha 'O' Anusandhan (Deemed to be University) (SOA) by facilitating the creation, preservation, and dissemination of knowledge. All the eleven constituent institutions of the University have their own libraries, catering to the academic and research needs of students, faculty members and research scholars at their respective campuses. The Central Library, located at the Institute of Technical Education and Research (ITER), Campus I, serves as the University's Principal Knowledge Resource Centre.

ITER, the Faculty of Engineering and Technology of Siksha 'O' Anusandhan (Deemed to be University), is the University's oldest constituent institute. Since its establishment in 1996, ITER has remained committed to providing quality education and has consistently excelled in teaching, research, innovation, and academic excellence. The institute strives to nurture students into enlightened, responsible, and globally competent professionals capable of contributing meaningfully to society.

At present, ITER comprises fourteen academic departments offering a wide range of undergraduate, postgraduate, and doctoral programmes in engineering, technology, and allied disciplines. Established to support the academic programmes of the University, the Central Library initially focused on building a comprehensive collection of textbooks and reference materials for teaching and learning. The Library houses more than 420,881 printed volumes, representing over 42,456 unique titles, along with an extensive collection of scholarly journals, popular magazines, theses, dissertations, project reports, standards, and other reference resources. In addition to its rich print collection, the Library provides access to a wide range of electronic resources, including e-books, e-journals, and online databases covering Engineering and Technology, Medical Sciences, Basic Sciences, Humanities, Social Sciences, Law, Pharmacy, Nursing, Agriculture, and Management. Committed to promoting digital scholarship and research excellence, the Central Library has continuously strengthened its electronic information infrastructure. It subscribes to a comprehensive collection of internationally acclaimed scholarly databases and digital resources, including Scopus, Web of Science, IEEE Xplore, Springer Nature, Taylor & Francis, ASME, ASCE, ACM Digital Library, Royal Society of Chemistry (RSC), American Chemical Society (ACS), EBSCO, ProQuest, Bentham Science, Access Medicine, Access Engineering, Wiley

Online Library, CAB Abstracts (CABI) with Full text, J-Gate, JSTOR, Karger, SAGE Journals, and Policy Commons, among others. These resources provide seamless access to high-quality scholarly literature for students, faculty members, researchers, and staff, both on and off campus through authenticated remote access. To uphold the highest standards of academic integrity and scholarly communication, the Central Library also provides access to advanced research support tools, including Turnitin for plagiarism detection and Grammarly for writing assistance. These services help students, researchers, and faculty members produce original, high-quality academic and research publications.

About IASLIC

The Indian Association of Special Libraries and Information Centres (IASLIC) is a non-profit professional organization dedicated to the advancement of special librarianship and information services in India. Since its inception, IASLIC has played a significant role in promoting the development of library and information science by supporting and coordinating research, encouraging professional studies, and organizing short-term training programmes to strengthen the competencies of library professionals. The Association regularly organizes general and special meetings, national seminars, and biennial conferences on contemporary issues in librarianship, information services, and allied disciplines. These events provide valuable platforms for professional interaction, knowledge exchange, and discussions on emerging trends and best practices in the field.

In addition to its academic and professional activities, IASLIC makes substantial contributions to library and information science literature through the publication of scholarly journals, monographs, manuals, newsletters, conference proceedings, research papers, and technical reports. These publications serve as important resources for researchers, practitioners, and students, while fostering innovation and professional excellence in the library and information science community.

About Seminar

The seminar emphasizes the evolving role of libraries in responding effectively to technological, environmental, social, and organizational challenges. It highlights how libraries can become resilient institutions by embracing innovation, digital transformation, and sustainable practices while continuing to meet the changing information needs of their communities. Libraries are no longer viewed merely as repositories of books and information. In the digital age, they have become dynamic knowledge centres that support education, research, innovation, and community development. The increasing frequency of natural disasters, public health emergencies, technological disruptions, cyber threats, and changing user expectations has made adaptability an essential characteristic of modern libraries. The seminar theme, "Adaptive Libraries: Resilience and Innovation," encourages library professionals to explore strategies that enable libraries to anticipate, respond to, and recover from disruptions while continuing to provide uninterrupted services.
