THE MESSAGE FROM THE PRESIDENT

One of the major objectives of the IASLIC is to make our school children book lovers and regular library visitors. No doubt elite schools of Kolkata have good libraries and they have library period in their timetables. A large number of students who belong to the disadvanged group are deprived of this facility. Exposure to new and colourful books which do not form a part of their course curricula is an important factor for enhancing their cognitive ability.

What about adverse impact of social media on school children. A recent article on this subject which appeared in The New York Times, June 7, has reported that even in a developed country like the USA with high level of social intelligence, social media companies have targeted students. They are hurting teenagers' mental health and academic performance. And consequently, lawsuits have been filed by more than 1400 school districts against Meta, Snap, TikTok and YouTube; blaming these platforms for adverse conditions like loneliness, bullying, eating disorders and physical exploitations. Many school districts are now banning smsrtphones, and some are re-examining their reliance on devices like Chromebooks and cheaper versions of laptops made by YouTube's parent company Google. The school districts have argued that "apps' addictive designs made teachers' jobs more challenging. It is so constantly tempting to the kids to be on a platform that promises endless, infinite, varied entertainment rather than focusing on what they should be at school to do".

What the IASLIC is planning to do is to bring the printed book to the forefront;---attracting students to the libraries and to save them from the adverse impact of social media. The school children should read more books (particularly classics) which qualifies for re-reading. These should be made available in abundance in a particular format (say comics or pictorial books) to attract children from all groups. Another project the IASLIC is planning is increasing computer mediated information search skills among school going children from disadvantaged groups. We hope this project will be successful and the IASLIC will be able to connect with the children and the families from the disadvantaged groups

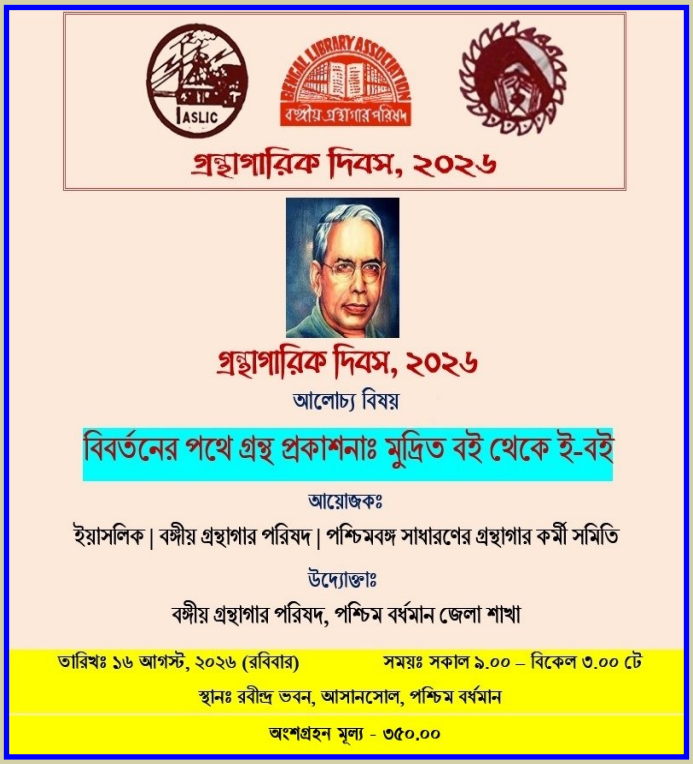
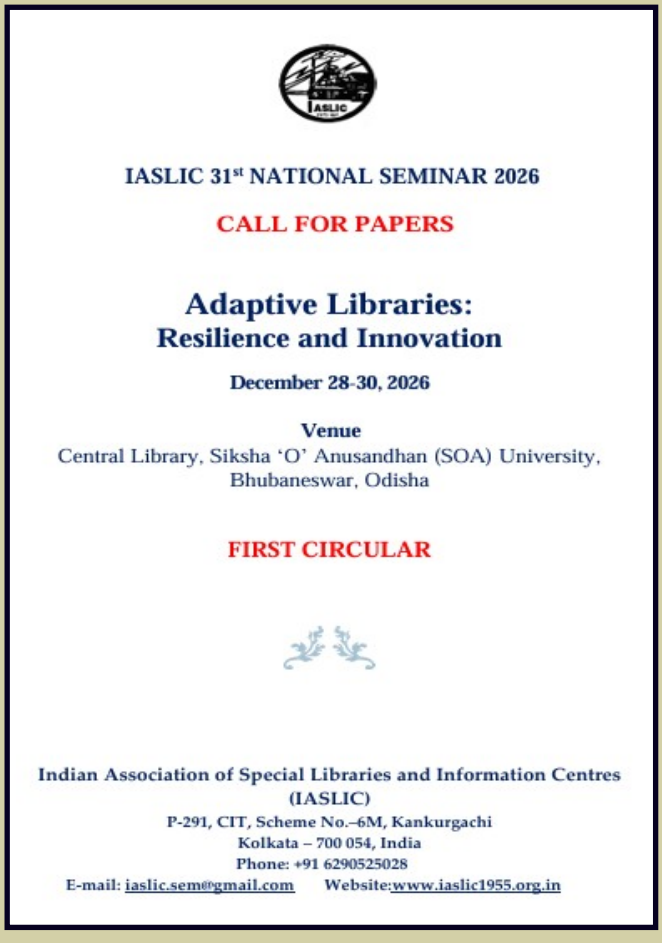
Librarians' Day 2026 — 16th August 2026

We proudly announce that like every year this year also IASLIC, BLA and WBPLEA will organise Librarians Day on 16th August, 2026 at Rabindra Bhawan. Asansole. West Burdwan. The details program is given below. Please save the date and join with us to make the 35th Librarian's Day a grand success.



IASLIC 31st National Seminar 2026



The IASLIC 31st National Seminar 2026 will be organised in collaboration with the Central Library, Siksha 'O' Anusandhan (SOA) University, Bhubaneswar, Odisha, India and is scheduled to be held at the Siksha 'O' Anusandhan (SOA) University, Bhubaneswar during December 28-30, 2026.

Libraries are to be adaptive in nature to respond proactively to any challenging situation caused by natural disasters, human-induced crisis, socio-political conflict or technological transformation. Adaptive libraries address challenges during any crisis period continuously evolving services, developing resources and infrastructure to meet the emergent needs of society. In 2015, the United Nations (UN) adopted the Sendai Framework for Disaster Risk Reduction (SFDRR), which outlined a strategy of Build Back Better (BBB) to make communities more resilient in the wake of crises by reducing their vulnerability to future challenges. International Federation of Library Associations and Institutions (IFLA) has also suggested integrating UN's Sendai Framework into libraries towards playing a pro-active role in managing the risk of, and responding to, disasters as part of broader strategies, as well as acting as a form of emergency service for crisis-hit communities. It has further highlighted the role of libraries in protecting cultural heritage, to build community resistance, to develop emergency information hubs. Library professionals should prepare themselves through necessary training, work together with other government and non-government institutions. A recent meeting of the BRICS Disaster Risk Reduction Working Group with representatives and experts of BRICS nations, held in India has highlighted the following aspects – Building for Resilience, Innovation, Cooperation and Sustainability while emphasizing globally recognized Indian disaster management models. Adaptive Libraries are well suited to incorporate the important factors like Resilience-the ability to bounce back; Innovation- development of new ideas, application of new technologies, introduction of new services satisfying the users' needs and thus to stay relevant and sustainable in the contemporary challenging situation in India overcoming the barriers to achieve Vikshit Bharat 2047 and its crucial objectives expressed for the survival of communities in this age of ever-increasing crises. Keeping in view the importance of these objectives, IASLIC has selected Adaptive Libraries: Resilience and Innovation as the main theme of this year's national Seminar inviting library professionals' deliberations and encouraging discussions to frame a proper guideline so that the libraries in India can be made future ready. While the concept of adaptive libraries has emerged, handling and managing of research data in the present context becomes an important issue for social sciences requiring appropriate labeling, storage, and access for huge datasets, versatile in nature, at all stages of rigorous, innovative, insightful and organized research. Of two Special Interest Groups, SIG 01 (Social Science Information) discussion would be on Research Data Management for Social Sciences facilitating more capacity for storing of social science data and addressing the challenges of making that data findable, accessible, interoperable, and reusable. In the present context, Artificial Intelligence and Machine Learning appeared as a boon to the library activities and services raising enough challenges of its wrong use. Towards exploring its real-life usability in different areas of library activities, Emergence of Artificial Intelligence in Library Services: Innovations, Opportunities and Challenges is considered the topic of discussion under SIG02 (Computer Applications in Libraries). Research Papers are invited on the following areas of the main theme of the seminar and the themes of SIG Meetings for deliberation during the seminar.

The National Library of India Welcomes Young Readers at 15 years

The National Library of India has taken a significant step toward nurturing young minds by lowering the minimum age for reader registration to 15 years. This progressive move opens the doors of the country's premier repository of knowledge to a wider community of students, budding researchers, and book lovers eager to explore its vast collection.

In a symbolic gesture of welcome, Prof. Ajay Pratap

Singh, Director General of the National Library, personally handed over reader cards to newly registered young readers, marking their entry into a world of learning and discovery. By embracing younger audiences, the institution reinforces its role as a beacon of knowledge, ensuring that the next generation has early access to invaluable resources that can inspire lifelong curiosity and scholarship. Prof. Ajay Pratap Singh, Director General, National Library, handed over reader cards to newly registered young readers, welcoming them to the nation's premier repository of knowledge.

Boosting Digital Library Services Through Value-Added User Engagement, 02. May. 2026: A Report

The Department of Library & Information Sciences has successfully organised an expert lecture on Enhancing User Engagement Through Value-Added Library Services in the Digital Era (hybrid mode) on Saturday, 02 May 2026, from 02:30 pm to 04:00 pm at Jai Minesh Adivasi University, Ranpur, Kota, Rajasthan. The event was focused on creating awareness among students, participants, and faculty members centering the importance of new, innovative & value-added library services in today's rapidly evolving digital environment. The eminent speaker was Dr Anil Kumar Jharotia, University Librarian, from the North Cap University, Gurugram, Haryana. The event has begun with the remarkable words of Sh. R. D. MEENA, Chairperson supporting the event wholeheartedly, motivated the students with his inspiring words and shared valuable experiences related to education, research, and technological advancements in the academic environment. Professor (Dr) Shrawan Kumar Meena, Vice-Chancellor, encouraged and motivated for the same. The event formally began with Saraswati Pujan, invoking the blessings of Goddess Saraswati, the symbol of wisdom, knowledge, and learning, in the presence of all the dignitaries. The introduction to the event was delivered by Dr Prashant Bhardwaj, Head of the Department of Library & Science Department. The event has been carried forward by Mr Akshay Kumar, (Coordinator) & Assistant Professor, DLISc, who briefed about the guest speaker for the day. The formal beginning of the lecture by Dr Anil Kumar Jharotia featured the importance of digital transformation in libraries, the importance of user-oriented services, new ways to improve user participation and satisfaction, and the role of librarians in the digital age. Committee members for the day event have managed the overall lecture in a very effective manner, comprising Ms Ayushi Soni, Library Assistant; Mr Khushraj Verma, Library Staff, Dr Bhuvan Chittoria, Assistant Professor and Dr Laxmikant Nagar, Assistant Professor.

Obituary

Heartfelt Tribute to Dr Bratati Neogi

ড: ব্রততি নিয়োগী

(১৩.০৭.১৯৫৪ – ২৫.০৬.২০২৬)

Dr Bratati Neogi, Former Joint Librarian, University of Calcutta, breathed her last on 25 June 2026. Born on 13 July, 1954 in Ballygunj, Kolkata, Dr Neogi started her primary education in Santiniketan and read up to Class VI. Then she got admitted to Muralidhar Girls' School, Kolkata in Class VII and passed Higher Secondary Examination in the year 1971.

She also passed the B Sc Hons Examination (in Physics) from Dinabandhu Andrews College in 1974. Dr Neogi passed Certificate in Library Science from Bengal Library Association and B Lib Sc Exam from Jadavpur University. Dr Neogi stood First Class Second position in the M Lib Sc Exam from University of Burdwan. She also awarded Ph D degree from Jadavpur University under the supervision and guidance of Dr Aditya Kumar Ohdedar, former Chief Librarian, Jadavpur University. During her M Lib Sc course, she received an appointment letter from the Geological Survey of India and joined in February 1980. After 11 years of service in GSI, Kolkata, she joined Bidhan Chandra Krishi Viswavidyalaya Central Library, Mohanpur, Nadia, as Assistant Librarian in the year 1991 and served there up to July 1995. She joined the University of Calcutta Central Library in July 1995 as Deputy Librarian and served till her retirement on 31 July 2014. She retired as Joint Librarian. Besides library professional activities, she was associated with many social activities and welfare organisations. She was a life member of Bengal Library Association and IASLIC.

The passing of Dr Bratati Neogi is a great loss to the library profession, and her legacy will be remembered with gratitude and respect.

IASLIC deeply mourns her death.
